

Søren Lehd resigns

Søren Lehd retires as of January 1st 2012

■ Søren Lehd

After more than 40 years in the industry I have chosen to retire as of January 1st. However, in 2012 I still have the opportunity to finish some projects and to assist as Jorgensen's consultant. During the years I have had a very versatile job with a lot of exciting tasks together with inspiring customers. I will miss the dialogue and the challenge in finding the right solutions and to see the equipment I have sold produce in many years. I will also miss the many personal relations I have built through the years in a lot of different countries. I wish you great luck in the future and thank you for our cooperation and the friendship we have had through the years.

Best regards
Søren Lehd

Jorgensen's new sales team

Changes and restructuring in the sales department

■ **Per Vedel Rasmussen** is mechanical engineer and has more than 25 years' experience with Jorgensen. Per has a lot of experience with pet food, sweetened condensed milk and packaging handling, and a great expert knowledge within milk powder. Per has projected several larger complete lines.

■ **Michael Hye Nielsen** is mechanical engineer and has many years' experience as development engineer, project engineer, self-employed and international sales manager. Michael has been employed by Jorgensen since spring 2010.

■ **Jan Nymark** is as of December 1st 2011 employed as our new Sales Manager. Jan has many years' of experience as engineer and international sales manager within related industries.

■ **Hans-Henrik Melbye** is mechanical engineer and is as of January 1st attached to the sales department as Key Account Manager. Hans-Henrik has been employed by Jorgensen for many years, both as COO in our Irish company and latest as Technical Manager.
